Raw Materials Group

Intierra
Resource Intelligence

Resource Sector Research and Analysis

With 25 years experience, Raw Materials Group and Intierra Resource Intelligence are the most trusted providers of research projects for governments and mining organisations globally.

Capability Overview:

- **M&A & Project Studies**
- **Mineral Strategy Policies**
- **Analysing Investment Trends**
- **Industry & Commodity Surveys**
- **Market Development Forecasting**
- **Exploration & Production Reports**

Assisting organisations with exploration and mining investment policy studies, commodity and sector surveys, regional exploration and project reports, production data analysis, ownership and M&A activity plus conceptual and prefeasibility studies. Leveraging the Raw Materials Group and IntierraLive databases to deliver detailed monitoring and forecasting of market development for mining equipment manufacturers and service providers.

Project examples:

Commodity & Trend Analysis

- Junior Exploration Evaluation
- The New Fundamentals: China
- Gold Sector Competitor Review
- Copper Consumption Dynamics
- World Mineral Exploration Trends
- Global Copper Tenement Analysis
- Mining Trends in Russia and the FSU
- The Annual Iron Ore Market Overview
- Capital Raising for Exploration in Africa
- Rare Earths + Metals: A Global Overview

Market Studies for Suppliers

- Global Emerging Mines
- Emerging Iron Ore Producers
- Market Outlook for Mining Pumps
- Global Potash Mining + Exploration
- Market Sizing for Mineshaft Equipment
- Global Review of Refineries and Smelters
- Analysis of the Underground Mining Market
- Global Nickel Exploration and Mining Activity

Mineral Policy Development

- Resource Sector – Performance Scorecard
- Development of Small-scale Mining in Namibia
- Mining Sector Diversification Programme Zambia
- Metal Stockpiling in Sweden, Finland and Switzerland
- Socio-economic Study of the Finnish Extractive Industry
- Health & Safety and Mining Laws of France, Germany and UK
- African and European Mineral Legislation – A Comparative Study
- Mineral Policy Development for Greenland Home Rule Government
- Comparative Study of Mineral Legislation in Africa, Europe and Asia
