

# Australian Iron Ore Mining & Exploration Activity

Highlight your company's projects or services to the global mining, exploration and investment communities through the worlds most recognised and trusted resource maps.

**Intierra's maps provide critical visual insight for companies seeking investment opportunities, potential partnerships and services within the mining sector.**

## Data included:

- Front side shows all major iron ore and magnetite mines and deposits that contain a quoted resource with detailed property table
- Reverse side highlights iron ore activity on prominent regional inserts
- General infrastructure including major cities, towns and transport over a coloured DEM base.

## Distribution of over 10,000 copies

Providing long term exposure to decision makers in the industry through:

- **Insertion in February AusIMM Bulletin.**
- Circulation at other national and international mining conferences including: Mines and Money London and PDAC.
- Direct mail to Intierra's private mailing list including 250 ASX listed financial institutions and investment houses.
- Distribution through all sponsors own PR initiatives.

## Sponsorship benefits:

- Targeted long term exposure to iron ore mining sector.
- Sponsor box on perimeter of both sides of wall map 680 x 980mm.
- Colour co-ordination of sponsor tenements, exploration projects and mines including status irrespective of size.
- Highlight significant exploration data or range of services offered.
- For further information on benefits please see reverse.
